# General Care and Safety Guide

**Thank you for choosing a Celsius Convector Heater. This Celsius appliance has been designed and manufactured to high standards of engineering and with proper use and care, as described in this booklet, will give you years of useful service. Please read these instructions carefully and keep for future reference.**

1. **WARNING** you must not cover this appliance. Covering this appliance presents fire risk and will activate the safety fuse; permanently disabling the unit.
2. Use only the voltage specified on the rating label of the appliance.
3. Keep all objects at least 1 metre from the front, sides and rear of the appliance.
4. This appliance is intended for household use only and not for commercial or industrial use.
5. Indoor use only.
6. Do not use abrasive cleaning products on this appliance. Clean with a damp cloth (not wet) rinsed in hot soapy water only. Always remove plug from the mains supply before cleaning.
7. The common cause of overheating is deposits of dust or fluff in the appliance. Ensure these deposits are removed regularly by unplugging the appliance and vacuum cleaning the air vents and grills.
8. Always unplug appliance when not in use.
9. When the appliance has been unpacked, check it for transport damage and ensure all parts have been delivered. If parts are missing or the appliance has been damaged, contact the Celsius Customer Services Team.
10. If your appliance does not work, or is not working properly, contact the place of purchase or the Celsius Customer Services Team.
11. Do not connect the appliance to mains supply until completely assembled and adjusted.
12. Ensure hands are dry before handling the plug or main unit.
13. Do not locate the appliance directly below any power socket outlet.
14. Ensure appliance is on a flat, stable, heat-resistant surface.
15. Do not operate with cord set coiled up as a heat build up is likely, which could be sufficient to become a hazard.
16. Carry out regular checks of the supply cord to ensure no damage is evident.
17. Do not operate this appliance with a damaged cord, plug or after the appliance malfunctions or has been dropped or damaged in any manner. Return to a qualified electrical person for examination, electrical service or repair.
18. Do not remove plug from power socket by pulling cord; always grip plug.
19. Do not twist, kink or wrap the cord around the appliance, as this may cause the insulation to weaken and split. Always ensure that all cord has been removed from any cord storage area and is unrolled before use.
20. It is recommended that this appliance is plugged directly into the wall socket. The use of power boards is not recommended as many power boards are not designed to supply power to high wattage appliances.
21. A correctly specified, undamaged extension cord may be used with this appliance provided it is used in a safe manner.
22. Use this appliance only as described in this manual. Any other use is not recommended by the manufacturer and may cause fire, electric shock or injury.
23. Do not remove plug from power socket until the appliance has been switched off.
24. Do not place cord under carpet or cover with rugs or furniture. Arrange the cord so it cannot be tripped over.
25. Do not place appliance on bedding or on thick & long carpet where the openings may get blocked.
26. Switch off and use handle provided when moving.
27. Do not place appliance close to radiant heat source.
28. Never use the appliance to dry clothes.
29. Do not insert or allow foreign objects to enter any ventilation or exhaust opening, as this may cause an electric shock, fire or damage to the appliance.
30. Do not sit on the appliance.
31. Do not operate in areas where petrol, paint or other flammable liquids are used or stored.
32. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they are supervised or have been given instruction concerning the use of the appliance by a person responsible for their safety.
33. Children should be supervised to ensure that they do not play with the appliance.
34. Do not use this appliance in the immediate surrounds of a bath, a shower, or a swimming pool or other liquids. The appliance must not be immersed in any liquids.
35. There are no user serviceable parts installed in the unit.
36. Do not place the unit in wardrobes or other enclosed spaces as this may cause fire hazards.
37. This unit is not supposed to be used in or around locations where foodstuffs, works of art or delicate articles of science, etc are stored.

**YOUR SAFETY IS IMPORTANT TO US. PLEASE ENSURE YOU TAKE NOTE OF THE INSTRUCTIONS AND WARNINGS OUTLINED IN THIS MANUAL.**

# Components

Main Body x 1

Feet x 2

Screw Pack:  
Screws x 4

# Assembly

**Before using this appliance, the feet (supplied separately in the carton), must be fitted to the unit. The screw pack to attach the feet to your appliance will be taped to either one of the feet for your appliance, or taped to the plug.**

Remove the packing. Check to ensure that all parts of this heater, cord and plug are not damaged. Confirm all parts before disposing of carton. Do not leave packaging materials like bags and staples within reach of children or animals.

**WARNING:** Do not use this heater if it has been dropped or damaged in any way or if the supply cord is damaged.

Carefully turn the Main Body upside-down on a scratch-free and stable surface. Be careful to prevent damage to the cosmetic finish or your floor surfacing.

Each foot supplied with this heater (supplied separately in the carton) requires only 2 screws to attach them securely to the heater. Holes are pre-drilled in the base of the heater.

**TIP:** Slightly angle the screws into the holes when you insert them. As you tighten them up, they will straighten and secure the feet.

The foot comes with 4 pre-drilled holes. It does not matter which way round you mount them. The pictures below show the location of pre-drilled holes on the heater base.

Screw holes in base of heater

Screws in position once fitted to heater

# Operating your Appliance

**Always choose a safe location for the appliance, keeping in mind the safety precautions outlined. Ensure all packaging has been removed from the unit before use. This appliance requires no installation, it should be used solely as a portable appliance.**

**WARNING: Keep all objects at least 1 metre from the front, sides and rear of the appliance.**

**WARNING: In order to avoid overheating or risk of fire, do not cover the heater.**

**WARNING: Never leave this appliance unattended when in use.**

**WARNING: Do not use this appliance with a programmer, remote-control system, separate timer or any other device that switches the appliance on automatically.**

**Note: When the appliance is turned on for the first time, it may release a slight odour or smoke. This odour or smoke is a normal occurrence caused by the initial heating of the internal heating elements and should not occur again.**

## CONTROLS

The control switch positions are:

750W - Low heat

1250W - Medium heat

2000W - High Heat (Press 750W & 1250W switches together)

Check that the On/Off switch is set to Off position before plugging the heater into the mains supply. For greater economy, use the High Heat setting initially and then switch to the Low Heat setting.

## THERMOSTAT

Turn the thermostat knob clockwise until you reach the maximum position on the graduated scale. When the room reaches a comfortable temperature, slowly turn the knob anti-clockwise until the appliance turns off (you will hear a click). The appliance will now cycle on and off to maintain the set comfort level. Take note of this position setting for future use.

## SAFETY DEVICES

This appliance has two protection devices:

1. Resettable thermal link - this will automatically disconnect the power to the appliance at a pre-set overheat temperature. After cooling down it will reset and power on again. If this occurs, investigate what is causing the appliance to overheat.
2. Thermal fuse - this disconnects the appliance permanently in case of overheating. (It is non resettable).

**CAUTION: The appliance generates heat during use. Proper precautions must be taken to prevent the risk of burns, scalds, fires or other damage to persons.**

# Care and Cleaning

## CARE AND CLEANING

The appliance requires regular cleaning to ensure trouble free operation:

Unplug the appliance from the mains supply before cleaning.

Ensure that the appliance has been allowed to cool down completely before cleaning.

Use a damp cloth (not wet) to wipe the exterior of the appliance to remove dust and dirt.

Never use solutions such as benzene, thinners or polishing agents.

Use a vacuum cleaner to remove dust and fluff from around the grills and fins.

Ensure the appliance is dry before plugging back into the mains supply.

Do not attempt to dismantle the appliance. There are no user serviceable parts. For service or repair, contact an authorised electrical service technician.

## PROOF OF PURCHASE

To receive warranty retain receipt as proof of purchase.

## **TECHNICAL SPECIFICATION**

Model No: CELCV100  
Supply: 220-240VAC 50Hz  
Wattage: 1800-2000W

# One Year Warranty

Thank you for purchasing this Celsius product. Your product is warranted against faults and manufacture when used in normal domestic use for a period of **one year**. In non-domestic use Celsius limits the voluntary warranty to **three months**.

Celsius undertake to repair or replace this product at no charge if found to be defective due to a manufacturing fault during the warranty period.

This warranty excludes damage caused by misuse, neglect, shipping accident, incorrect installation, or work carried out by anyone other than a qualified electrical service technician.

PLEASE KEEP YOUR RECEIPT AS THIS WILL HELP VERIFY YOUR WARRANTY.

The benefits given to you by this warranty are in addition to other rights and remedies available to you under law in relation to the goods or services to which this warranty relates.

In Australia, our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

In New Zealand this warranty is additional to the conditions and guarantees of the Consumers Guarantee Act (1993).
